

Geophysical Monograph 91

Seafloor Hydrothermal Systems

Physical, Chemical, Biological, and Geological Interactions

Susan E. Humphris
Robert A. Zierenberg
Lauren S. Mullineaux
Richard E. Thomson

Editors

 American Geophysical Union

CONTENTS

Preface

*Susan E. Humphris, Robert A. Zierenberg, Lauren S. Mullineaux,
and Richard E. Thomson* xi

Distribution of Hydrothermal Activity and Its Associated Biological Community

**Tectonic and Volcanic Controls on Hydrothermal Processes at the Mid-Ocean Ridge: An Overview
Based on Near-Bottom and Submersible Studies**

Daniel J. Fornari and Robert W. Embley 1

Hydrothermal Plumes Over Spreading-Center Axes: Global Distributions and Geological Inferences

Edward T. Baker, Christopher R. German, and Henry Elderfield 47

The Deep-Sea Hydrothermal Vent Community: An Overview

Robert R. Hessler and Victoria A. Kaharl 72

Interactions Affecting Hydrothermal Deposits

Subseafloor Processes in Mid-Ocean Ridge Hydrothermal Systems

Jeffrey C. Alt 85

Physical and Chemical Processes of Seafloor Mineralization at Mid-Ocean Ridges

Mark D. Hannington, Ian R. Jonasson, Peter M. Herzig, and Sven Petersen 115

Modeling Chimney Growth and Associated Fluid Flow at Seafloor Hydrothermal Vent Sites

Margaret Kingston Tivey 158

**Interaction of Vent Biota and Hydrothermal Deposits: Present Evidence and Future
Experimentation**

S. Kim Juniper and Jozée Sarrazin 178

**Stable Isotopes in Mid-Ocean Ridge Hydrothermal Systems: Interactions Between Fluids, Minerals,
and Organisms**

W. C. Shanks III, J. K. Böhlke, and R. R. Seal II 194

Interactions Within Hydrothermal Fluids

Controls on the Chemistry and Temporal Variability of Seafloor Hydrothermal Fluids

K. L. Von Damm 222

**Phase Equilibria in Subseafloor Hydrothermal Systems: A Review of the Role of Redox,
Temperature, pH and Dissolved Cl on the Chemistry of Hot Spring Fluids at Mid-Ocean Ridges**

W. E. Seyfried, Jr. and Kang Ding 248

Microbial Interactions With Hydrothermal Fluids

Holger W. Jannasch 273

**Toward an Appreciation of Hydrothermal Vent Animals: Their Environment, Physiological
Ecology, and Tissue Stable Isotope Values**

Charles R. Fisher 297

CONTENTS

Interactions Within Hydrothermal Plumes

Hydrothermal Plumes: Near and Far Field

John E. Lupton 317

Oceanic Hydrothermal Circulation: Mesoscale and Basin-Scale Flow

Karl R. Helfrich and Kevin G. Speer 347

Physical Dynamics of Deep-Sea Hydrothermal Plumes

Russell E. McDuff 357

Chemical and Biochemical Transformations in Hydrothermal Plumes

Marvin D. Lilley, Richard A. Feely, and John H. Trefry 369

Hydrothermal Activity and the Geochemistry of Metalliferous Sediment

Rachel A. Mills and Harry Elderfield 392

Dispersal Mechanisms of Deep-Sea Hydrothermal Vent Fauna

Lauren S. Mullineaux and Scott C. France 408

Hydrothermal Fluxes

Heat Flow and Hydrothermal Circulation

Carol A. Stein, Seth Stein, and Aristeo Pelayo 425

The Magnitude and Global Implications of Hydrothermal Flux

David Kadko, John Baross, and Jeffrey Alt 446
